EDITOR'S NOTEBOOK

Dear Archie Readers,

What would be the first thing you'd think of, if you saw both Betty and Veronica dressed in wedding gowns? What kind of impression do you think it would make on Archie? You may not be able to answer these questions now, but you will after you read "Archie's Choice" in BETTY & VERONICA #112 JUNE, on sale next month. This may turn out to be one of the greatest "Love Triangle" stories of all time. "Archie's Choice" was written by Barbara Slate, with artwork by everyone's favorite artist, Dan DeCarlo. This story features some bridal fashion pages that will make you want to start planning your wedding, even if you haven't found Mr. Right just yet.

Next on the list for next month is ARCHIE'S SPRING BREAK #2. This issue's feature story finds the kids from Riverdale High planning a vacation to a surprisingly very inexpensive resort. Why is it so cheap? It seems there's a monster in the lake. Not very appealing to guests for swimming, boating or other water related activities. However, I know that you know what I know that we all know, somehow, Archie and the rest of the Riverdale crew will figure out some way to salvage their vacation. Be sure to read "Vacation Frustration" in Archie's Spring Break #2, which by the way is a GIANT 48-PAGE SPECIAL.

In ARCHIE & FRIENDS #23 JUNE, a famous monkey from the hit TV show "Pals" is given the key to the city by the Mayor of Riverdale. What's a monkey going to do with the key to the city? Actually, nothing! But see what happens when he runs loose and invades Riverdale High. You'll go "bananas" when you see this monkey make a monkey out of everyone. Especially when he attends Professor Flutesnoot's chemistry class. This issue is also on sale next month. Don't miss it!

I'm still trying to catch up with answering all my e-mail. Please be patient, I'll try to write back to everyone.

Blue-footed Booby

The blue-footed booby is a tropical seabird, found on the islands off the Pacific coast. It

is one of the world's most comical looking birds. It's as big as a goose and has dazzling blue webbed feet, a cigar shaped body, with long pointed wings and tail. It catches fish in spectacular plunging dives beneath the surface of the

waves. Its tapering, pointed bill with serrated edges is perfect for holding onto the slippery fish that are its prey. The word "bobby" comes from the spanish word bobo which means "stupid fellow". The bird got it's name because of its lack of fear, and its clumsiness on land have made it easy prey for man.

**\$5
SECOND
PRIZE**

Walrus Tusks

Walruses have long white tusks protruding from their upper jaw. Walrus tusks are really just its two front teeth that grow much longer than the other teeth. They can grow up to almost three feet long and weigh over thirteen pounds. The walrus uses it's tusks to find food by stirring up the dirt on the ocean floor to see if any shellfish are hiding there. They're also used as weapons in fights between two males.
